

Template

420 x 594 mm

You can use this file as an extra layer in your project. Don't forget to make our template invisible before you print it as a PDF, or JPG with high a resolution.

Printed size to be submitted (426 x 600 mm)

The printed size + 3 mm cutting margin (bleeding). It is advised to let the background and all content to be white. This ensures that your printing can be cut without damage to your print.

Cutting edge size (420 x 594 mm)

Printing will be cut on these dimensions so that your print will be delivered to you.

Margin (4 mm)

Please make sure you keep your important content away from the cutting edges. This prevents a possible cut-off. If your content is so close to the edge that it results in a cut-off, please increase the margin.

Width 420 mm

Length 426 mm
